TRAINER PROFILE

AI training backed by real project delivery.

A cross-functional background spanning management, education, marketing, technology and applied AI.

EXECUTIVE PROFILE

Soe Moe's background spans project management, education technology, web systems, software architecture, digital marketing, data monitoring, AI chatbot work and ICT training.

Experience includes education data management, project/team leadership, digital marketing leadership, Education Project Manager responsibilities, ICT instruction, USAID/fhi360 software architecture consultancy, membership systems, learning platforms and AI-enabled business projects.

EXPERTISE MATRIX

1. **AI & Prompting**
   Prompt systems, AI workflows, responsible use
2. **Management**
   Strategy, projects, operations, teams
3. **Marketing**
   Campaigns, content, analytics, growth
4. **Data**
   Monitoring, reporting, BI, decision support
5. **Technology**
   Web systems, software architecture, automation
6. **Education**
   ICT training, LMS, e-learning, curriculum

Career Foundation

Management → Education → Marketing → Technology → Applied AI

2003-2008 — **HR & Management**
Bus line management, reporting, statistics and operations coordination.

2008-2013 — **Education Data & Administration**
Student data, reporting, recruitment, examinations and policy support.

2013-2019 — **Marketing & Project Leadership**
Campaigns, websites, teams, budgets, analytics and project delivery.

2015-2018 — **ICT Instructor**
Part-time ICT instruction across systems, networks, applications and safety.

2020-2021 — **Education Project Manager**
Training coordination, stakeholders, implementation monitoring and documentation.

2022-2025 — **Software, Membership & AI Projects**
Software architecture consultancy, membership systems, AI chatbot and AI marketing work.

DESIGN
Google UX Design

BI
Google Business Intelligence

TECHNOLOGY
Google IT Automation with Python

Credential Portfolio
Google • Meta • Adobe • University of California, Irvine • DeepLearning.AI • Google Cloud

TRAINING PORTFOLIO

20 AI Classes • 20 practical pathways.

Each class includes a structured syllabus, practical output and real-world workflow connection.

CLASS 01

AI for Business Management

Strategy • marketing • operations • analytics

CLASS 02

AI for Professional Management

Productivity • project work • communication • leadership

CLASS 18

AI for Creator

Prompting • creative tools • portfolio • responsible AI

Complete AI Class Map

01	AI for Business Management	MANAGEMENT
02	AI for Professional Management	MANAGEMENT
03	Prompt Engineering for Real Work	PROMPTING
04	AI Strategy & Digital Transformation	TRANSFORMATION
05	AI for Project Management	PROJECTS
06	AI for Digital Marketing & Sales	MARKETING
07	AI for Data Analytics & Business Intelligence	DATA
08	AI for Teachers & Education	EDUCATION
09	AI for HR & People Management	PEOPLE
10	AI for Finance & Operations Management	OPERATIONS
11	AI for Data Analysis & Visualization	DATA
12	AI for Marketing & Social Media	MARKETING
13	AI for Education & E-Learning	EDUCATION
14	AI for Content Creation (Text, Image, Video)	CREATIVE AI
15	AI for Design & Creative Arts	DESIGN
16	AI for Productivity & Automation	PRODUCTIVITY
17	AI for Entrepreneurship & Startups	ENTREPRENEURSHIP
18	AI for Creator	CREATOR AI
19	AI for Ethics, Safety & Responsible Use	RESPONSIBLE AI
20	AI for Career Development & Future Skills	CAREER

Training philosophy: usable outputs, repeatable prompts, real project context and implementation-focused learning - not theory alone.

TEACHING & FOUNDER ROLES

NSMS College + KID TECH CREATOR ACADEMY

Two distinct teaching contexts: management-focused AI at NSMS College and project-based creator learning at KID TECH.

TEACHING AT NSMS COLLEGE

National Strategy & Management Studies (NSMS College)

Soe Moe teaches two AI management classes at NSMS College:

01 **AI for Business Management**

02 **AI for Professional Management**

PROJECT EXPERIENCE

Selected systems, websites, AI and digital transformation work.

Training topics are connected to documented project delivery across NGO, education, membership, marketing and technology contexts.

Selected Project Timeline

2022-2023 — **STS Software Architecture - USAID / fhi360**

Software architecture, technical specifications, coordination, testing and implementation.

2024 — **YCTA Membership System**

Digital membership platform, member data and operational workflows.

2025 — **AI Chatbot & AI Marketing Agency**

AI automation, marketing and customer interaction.

2026 — **NexCinematic - AI Cinematic Video Creator**

Generative AI, cinematic storytelling and AI video creation.

2021-2022 — **Learning Management System**

Education technology, LMS and training systems.

2016-2022 — **NSMS School Management Software & Website**

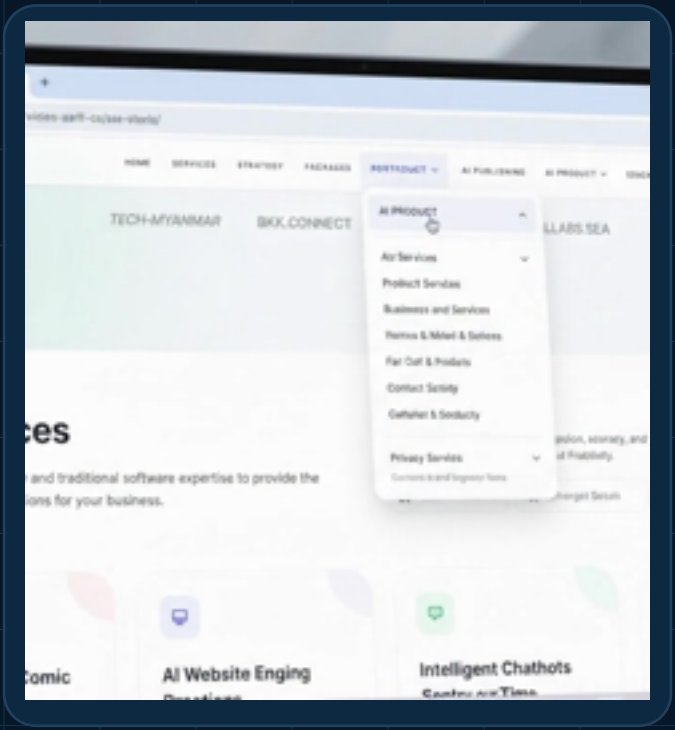

EdTech, school management and web platform delivery.

Additional work includes LMS, membership websites, POS & invoicing, FDA library management, NSMS school systems, CTUM websites and digital marketing campaigns.

2026 DIGITAL + AI PORTFOLIO

Live AI products, web systems and publishing work.

Current work connects training content to deployable AI, creative media, business, knowledge and service workflows.

Live AI Project Hub

AAII.ASIA - AI Solutions & Product Portfolio

1. **NexCinematic**
   AI cinematic video creator
2. **AI Animation & Comic**
   Visual storytelling workflows
3. **AI Website Engine**
   AI-supported web production
4. **Intelligent Chatbots**
   Conversational AI systems
5. **AI Marketing & Growth**
   Business growth workflows
6. **AI-First E-Publishing**
   AI-enabled publishing pipeline
7. **Teaching AI**
   Learning and tutoring experiences
8. **Information & Assistance AI**
   Knowledge and task support
9. **Service AI**
   AI-enabled service delivery

COURSE + BOOK MODEL

20 AI classes. Companion learning books.
Published profile currently highlights 9 titles.

TRAINING • WEBINAR • CONSULTING

Bring practical AI training to your team.

Available for business training, professional development, teacher training, webinars, AI project consulting and curriculum design.

1 Business Training
AI for strategy, management, operations and growth.

2 Professional Development
AI workflows for planning, communication and productivity.

3 Teacher Training
AI-enabled lessons, assessment and e-learning.

4 Creator Training
Prompting, image/video/audio, branding and publishing.

5 AI Consulting
AI use cases, roadmaps, workflows and prototypes.

6 Curriculum Design
Structured course pathways with projects and outputs.
